

Wily 5 (Final Stage)

- The Wily Manip

The Wily Manip

While Dr. Wily's pattern is RNG, randomness in Mega Man 9 and 10 is determined by number of frames since beam-in. As such, if you always move to Wily in EXACTLY the same way, you will always get the same pattern. This often seems like weird unnecessary movements when watching a video without context.

(Actual walkthrough to be written)
