

Boss Life Meter Speed

Mega Man 4 is known for extremely long meter filling. However, damaging a boss while it's life meter is filling will cause the animation to instantly complete. There are two points in the run where this can be done.

1. Tako Trash (Wily 2 boss)
2. Wily Machine phase transition to phase 2 (Wily 3 boss)

In theory this could be used in other places, but there is no opportunity to do so.
