

# Dust Man - The Rest

After the crusher screen, if you are not already using Ring, switch to Ring.

The gumball machine takes 4 hits from Ring. While a well placed Ring will hit it 3 times instead of 2, you need to fire two anyway.

The Met on the spike screen can be killed (3 shots), or "back boosted" through. Killing it is slightly faster.

The big stomper should be slid under. If you have the health, try to chain your slides perfectly without stopping. Sliding under a small hop is 3 frame perfect slides.
