

# Cloud Man - Screen 1

Slide to the right and start charging. Use short hops to start sliding again quickly, and get past the stream of 4 purple birds before they can dive to you.

Slide as far as you can off the ledges to get over the up/down enemies in the pits, otherwise the jumps are spooky. **For the second jump**, you can full jump and shoot the birds rather than trying to get under them. Shoot the lead bird to stop the rest from diving.

On the last jump to the platform, you can again either fire at the bird's height to tag the lead bird and stop them from diving, or try to out-slide them.

At the rain generator at the end, slide close to the end of the platform and back cancel - you don't need to be ON THE EDGE you just need to be close enough to slide off. While the white robot is high in its up/down cycle, slide off the edge while holding right. You should make it to the end.

Remember to jump and grab the ladders as high as you can.
