Cloud Screen 4 - Invisible Platforms

Opening

> If you made it snow in the stage with freeze cracker, you can see these platforms covered in snow. This is obviously not possible in Cloud first but might be useful for learning the platform layout or in a hundo run with Cloud third.

Shoot as you enter the screen to defeat the first enemy. Jump up the first step and medium jump to the next platform.

Jump and shoot twice to destroy the bird egg. ***Slide over the two tile gap while holding right - you'll make it.***

Jump up the stairs, charge a shot, and slide off the ledge down to the next platform. Jump up the next steps of stairs, then slide to the next platform...

Minor Hundo Route Divergence

> The Rush Power Adapter letter plate is up a ladder from this screen, above the next lower platform. See Hundo notes for the fastest way to acquire it, but it likely involves Rush.

Any%

Charge Shot the eff enemy and slide-jump to the next screen.
