

Slash Screen 3 and 4 - Dino Spikes

Screen 3

Intended Strats

Ride the dinosaurs across the spikes, shooting or avoiding the flying enemies as they go.

Speed Strat

Slide close to the dino, then summon Rush Jet.

Remember Rush gets injured and teleports away when hit by an enemy.

Ride Rush somewhat low through the first section, shooting lemons to kill the flying enemies.

Once you pass the enemy that spawns just in front of the second dino, hold up to fly all the way up. There is one enemy that may come close but it will not hit you.

When you see the ladder, climb it unless you want the E-Tank.

There is an E Tank just past the ladder, high on the screen. You can collect it by flying high with Rush, then slide jumping back left to the platform near the ladder. This is not needed for any category and is just a safety.

Screen 4

Just get to the ladder on the right side of the platform and go to screen 5. Use T. Strike on the Sniper Joe if you want to kill it.

Switch to Junk Shield or Danger Wrap for the next screen.
