

# Bolt Locations - Clown Man

Clown Man's stage has 5 bolts, one in the first half and 4 in the second half. The one bolt collected in any% is pretty much in the way. One bolt in the second half hard-requires a revisit after Sword Man, and a second bolt is best collected at the same time as that bolt, meaning 2 of the 5 total bolts are left for that revisit.

The images and text below are taken directly from The Compendium

## First Half

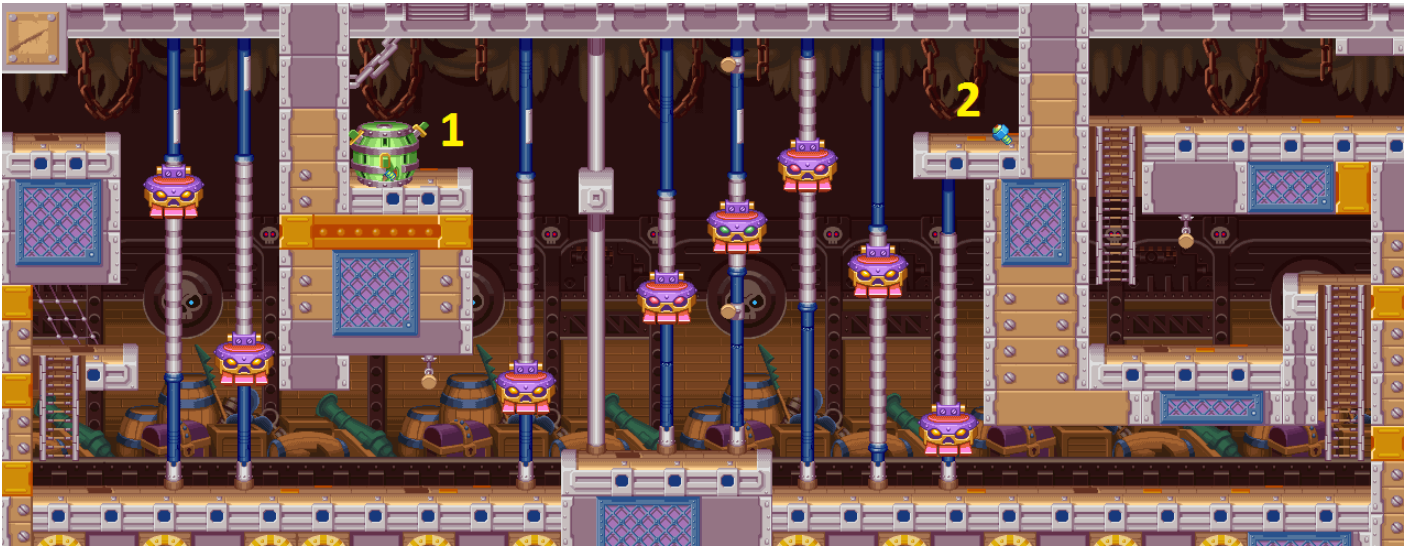

Hop across the gap at the end with Rush Bike. If you fail it the first time, you get a second chance on the revisit. If you fail it twice, it's best to exit and re-enter.

## Second Half

Near the start of the second half of Clown, slide past the Joe. If you fall down, you can ball jump back up.

(Note - both of these are routed for collection on a revisit) Break the barrel with Flame Sword, and then ball jump over to the second bolt.

## The Climb

Use the block denoted with a white star on the left to access the area with the bolt. The second white star block will take you back to the first.
