According to Werking, there is a zip that sometimes mysteriously "just kills you". This can be prevented by tapping left after the menu if you don't hear the Spike Guard sound.

Astro Man RMF - Button Puzzle Skips

You can skip the button puzzles with ice wall and good timing. The second puzzle is easier to skip than the first.

The basic idea for both is to position Mega Man's hand properly. The background is conveniently many small squares, so position Mega Man about 3 squares away. Use ice wall, slide into it, and clip through the door.
